LF-2000 SOLDERING STATION

Humanism interface: The angle of control panel is conform to humanistic. It's easy to read and set

Minitype station: Less desktop occupation!

Elasticity filling combination: Provides many kinds to let the customer select in the assembled. Assure the product furnishes a neat assembled and economical for the economic efficiency.

Hi-power heater: Can be rapid in charge fast, favored by load free soldering

Build-up grounding Can link up ESD wrist strap

Product Features

Password lock : Convenient for control

Auto sleep : Save power and the life of tip

Minitype station : Less desktop occupation

C / °F Select Mode : May set display °C / °F

Quick heat : Room temperature to 400C time taken 20s

Real-temp modification : Real temperature can modify Manually

Sensor fail notification : When the sensor failed,"S-E" will Be shown, SIA will power off

Heater fail notification : When the heater failed,"H-E" will Be shown, SIA will power off

Input power	220-240Vac 50Hz
Wattage	100W
Temperature range	150-480 C / 302-896 °F
Standard tip	44-510601
